Product description

100G-Q28-DCO-ZR is a 100G ZR Digital Coherent Optics (DCO) QSFP28 transceiver module, compatible with Multi-Vendor MSA standards, and designed for operation over double single-mode fiber (SMF). The module supports a 100G electrical host interface compliant with IEEE 802.3 CAUI-4 (4× 25.78125 GBd NRZ) and a coherent optical line interface with Staircase Forward Error Correction (FEC). On the transmission side, the module converts 4× 25.78125 GBd NRZ electrical input channels into a single coherent optical signal modulated using DP-DQPSK for long-reach fiber transmission. 100G-Q28-DCO-ZR uses top quality ITLA (Integrable Tunable Laser Assembly) operating across the full C-band, tunable on either a 50GHz or 100GHz ITU grid and an ICR (Integrated Coherent Receiver). 100G-Q28-DCO-ZR supports DDM/DOM optical diagnostics and operates in Standard 0° to 70°C temperature range and has double LC interface. 100G-Q28-DCO-ZR transceiver is CE/RoHS certified and is compliant with the QSFP28 MSA, CMIS Rev 01.1. RoHS. We will be glad to know your requirements!
