Product description

The MTP-MTP-OM4-16B is a high-performance MTP to MTP Type B cable, featuring 16-fiber OM4 multimode compatibility. MTP stands for Multi-fiber Termination Push-on and is a registered trademark of US Conec. Available in lengths ranging from 1 to 50 meters, this cable uses 50/125 micron fiber with a 3mm jacket diameter made of Low Smoke Zero Halogen (LSZH) material. The insertion loss is exceptionally low, typically 0.15dB. Suitable for a wide range of temperatures(-10°C to +70°C), it meets the needs of diverse environments.

Designed for 400G Data Center applications, the cable facilitates connections between transceivers or from transceiver to patch panel. It is CE/RoHS certified, complying with ISO/IEC-61754, EN 50399, and EN 50575 standards, ensuring compatibility with other manufacturers' equipment and adherence to safety and material standards.
